

COUPLE ACIDE/BASE

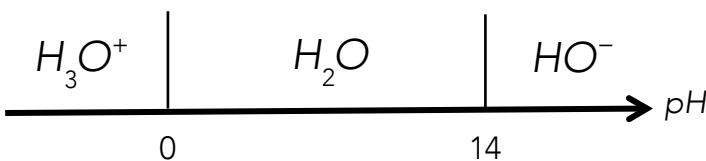

$$K_B = K_e = [\text{H}_3\text{O}^+] [\text{HO}^-] = 10^{-14}$$

$$K_A = K_e = 10^{-14}$$

$$K_B = 1$$

COUPLE OXYDANT/REDUCTEUR

$\text{H}_2\text{O}, \text{H}^+(\text{H}_3\text{O}^+), \text{HO}^- \Rightarrow$ même entité redox: $n.o(H) = +I$ $n.o(O) = -II$
